

REMARKS

[0001] Applicant respectfully requests reconsideration and allowance of all of the claims of the application.

Specification Objections

[0002] The Examiner indicates that, on page 2, the specification lists a function "X = s + w(M)," but fails to identify all of its terms. Herein, Applicant amends to address this informality.

[0003] The Examiner indicates that, on page 9, the specification makes reference to "DC" subband, but does not define "DC." Applicant submits that the term "DC subband," as a whole, is a term of art, which is familiar to and understood by those of ordinary skill in the art at the time of the invention. Therefore, no definition of the label "DC" is given separately for the recognized term "DC subband."

[0004] The Examiner indicates that par. 34 uses both a semi-colon and a comma. Herein, Applicant amends to address this informality.

[0005] The Examiner indicates that, on page 12, the the value of "N" in the second sentence is unknown and unsure of. Herein, Applicant amends to address this informality.

[0006] The Examiner indicates that equation 1 is not listed on or near page 13. Herein, Applicant amends to address this informality.

[0007] The Examiner indicates that, on page 14, par. 54 has commas missing between the terms "weighted" "linear" and "statistical." Herein, Applicant amends to address this informality.

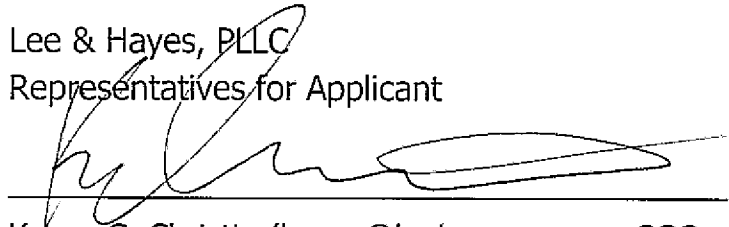

[0008] The Examiner indicates that, on page 17, par. 68, the second term "subject good" is not completely in quotations. Herein, Applicant amends to address this informality.

[0009] The Examiner indicates that on pages 20 and 22, Equation 1 is not on the listed pages. Herein, Applicant amends to address this informality.

[0010] All pending claims are in condition for allowance. Applicant respectfully requests reconsideration and prompt issuance of the application. If any issues remain that prevent issuance of this application, the **Examiner is urged to contact me before issuing a subsequent Action.** Please call or email me at your convenience.
